

EMERGENCY RESPONSE PROTOCOL FOR ACTIVITIES IN SELF-MANAGED EVUP FACILITIES

1. In Case of Fire

Fires caused by accidents or negligence that result in the burning of the facility.

- 1.1 Call the management company Sots Verds
 - i. This allows doors and barriers to be opened for emergency exit access.
- 1.2 Sots Verds calls 112
 - ii. If the management company cannot be reached, 112 must be called directly.
- 1.3 Evacuate the area to a safe zone
 - iii. Sots Verds is responsible for notifying workers in the material handling area to initiate evacuation.
- 1.4 Receive external emergency teams and inform them of the situation
- 1.5 Follow the instructions of emergency services

2. In Case of Anthropogenic Risk

Risks related to human activity, including accidents, injuries, dizziness, fainting, etc.

- 2.1 Notify the station's management company, Sots Verds
 - I. The company must be informed as they can provide assistance and security camera records.
- 2.2 Assist the injured person
 - I. The injured person must be protected, and relevant information must be gathered.
 - II. It must be assessed whether external assistance is needed or if the situation is under control.
- 2.3 Call 112
 - I. Emergency services must be contacted if the situation requires it.
- 2.4 Provide information and assistance
 - I. Help must be provided to emergency services if requested.
